Severe Weather Outlook Friday, December 11, 2020

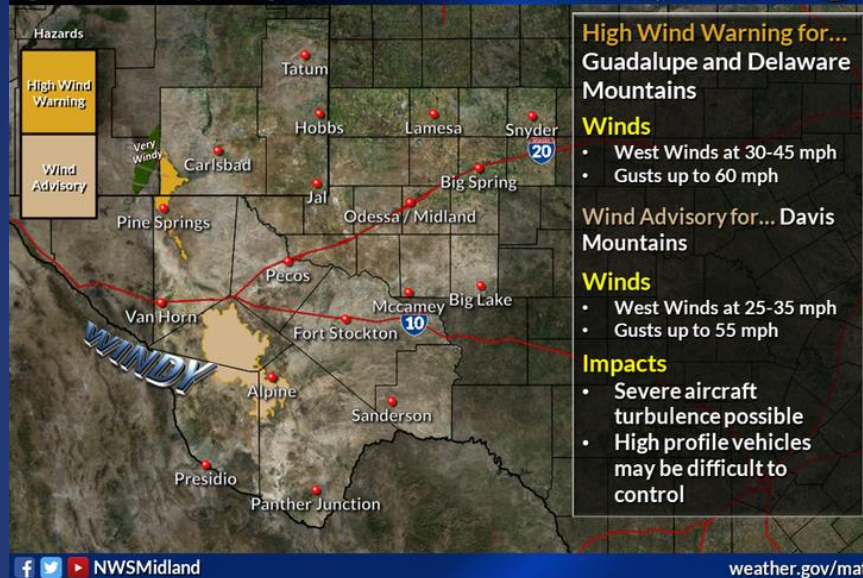

Hazardous Weather

High Winds for the Mountains

High Winds in the Guadalupe's, strong winds for Davis Mountains

Weather Forecast Office
Midland/Odessa, TX
Issued December 11, 2020 2:35 AM CT

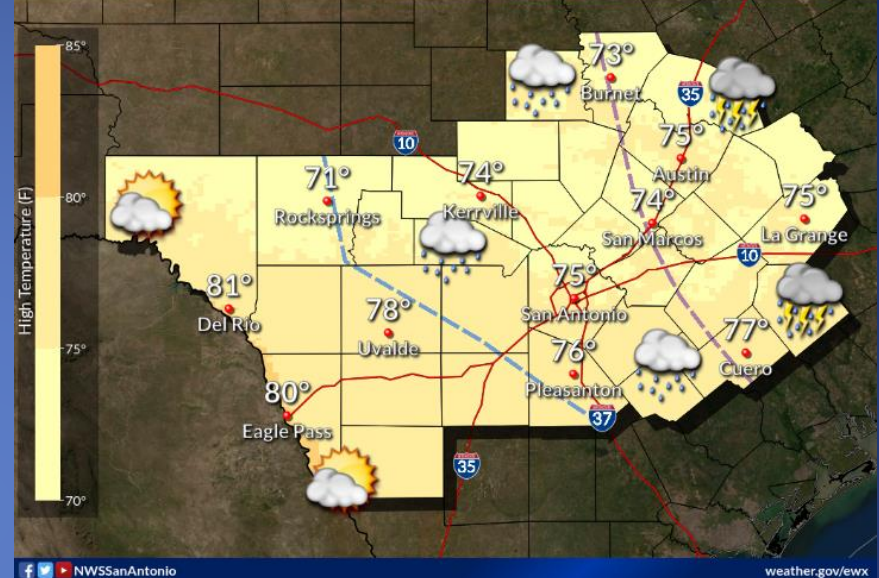

A High Wind Warning is in effect for the Guadalupe and Delaware Mountains until 8 PM MST/9 PM CST Friday. A Wind Advisory is in effect for the Davis Mountains from 9 AM CST through 9 PM CST today. Use caution as high profile vehicles may be difficult to control and severe aircraft turbulence is possible.

Partly to Mostly Cloudy & Warm

Scattered showers and a few thunderstorms for most areas.

Weather Forecast Office
Austin/San Antonio, TX
Issued Dec 11, 2020 2:39 AM CST

An approaching upper level disturbance and cold front will bring a chance for showers and a few thunderstorms to most of south central Texas today. Thunderstorms will be favored east of a Burnet to Cuero line. In addition, a few strong storms can't be completely ruled out along and east of a Georgetown to Hallettsville line. High temperatures today will be in the 70s, except near 80 degrees along the Rio Grande.

Hazardous Weather

Today: Rain Chances

Stoms moving east through the area - Western areas early, Eastern in the afternoon.

Weather Forecast Office
Houston/Galveston TX
Issued Dec 11, 2020 5:15 AM CST

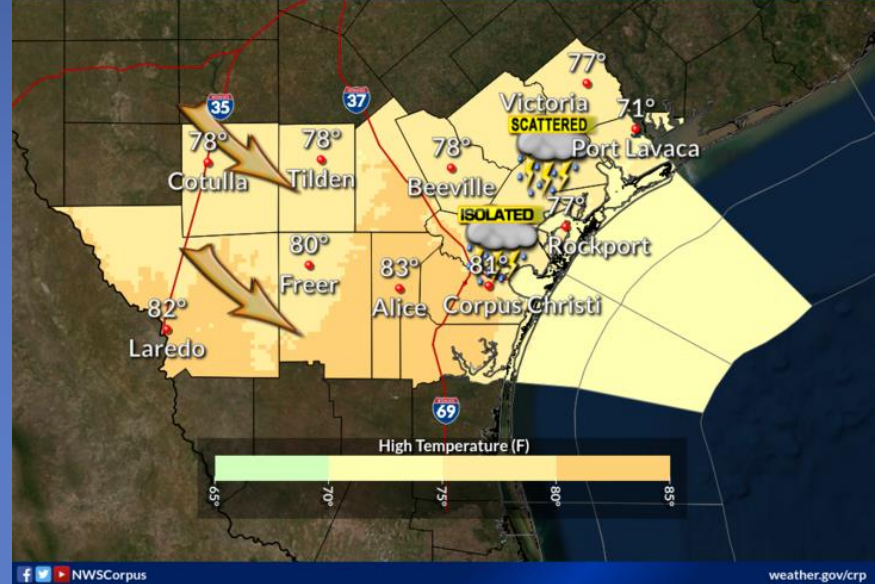

A pre-frontal trough of low pressure will move east through the area today. Showers and thunderstorms will be developing along the trough and should move through the western areas this morning and early in the afternoon shifting into the eastern areas this afternoon. A few strong thunderstorms may develop with strong gusty winds this afternoon mainly in the northeast areas. An cap of warm air aloft may limit the development of thunderstorms further south.

Isolated/Scattered Thunderstorms East Today

Drier Conditions From West to East This Afternoon

Weather Forecast Office
Corpus Christi, TX
Issued Dec 11, 2020 4:32 AM CST

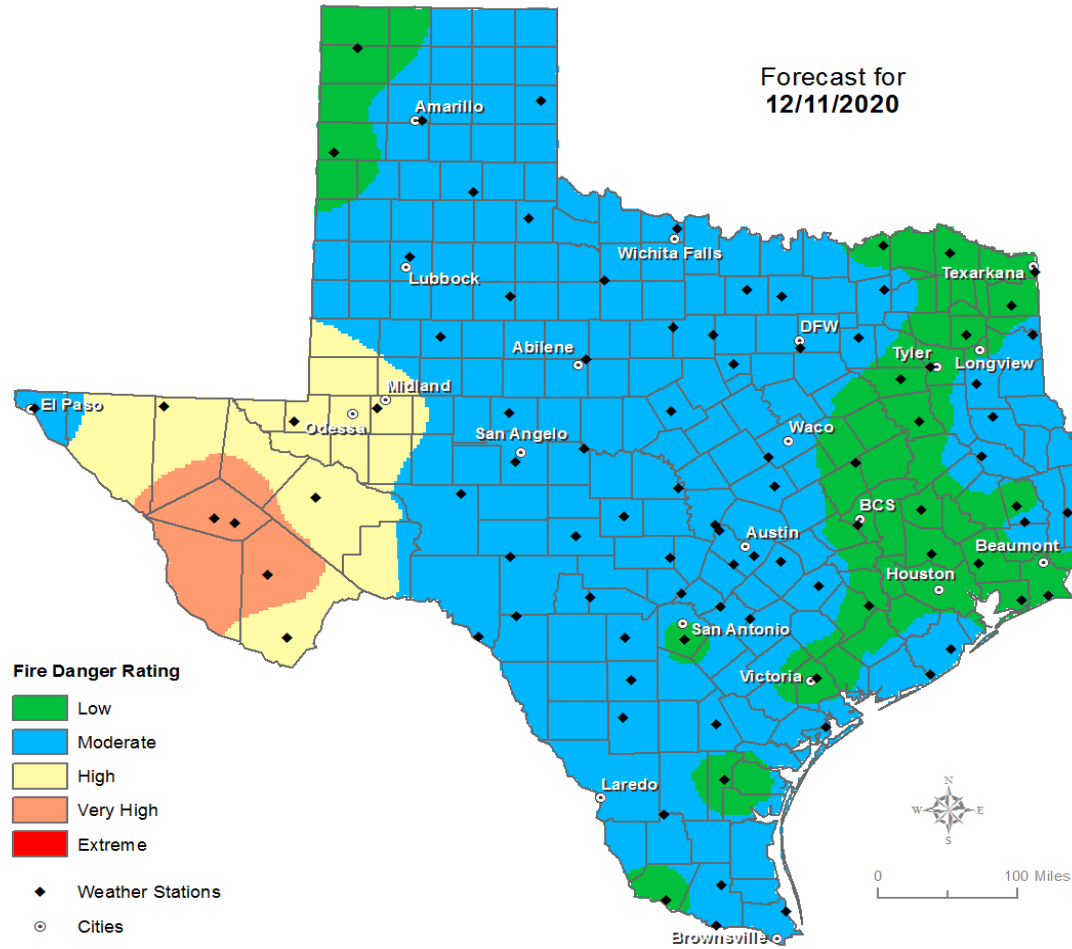

An upper level disturbance will contribute to isolated to scattered showers and thunderstorms over the Coastal Bend and Victoria Crossroads today. However, drier conditions are expected from west to east beginning this afternoon. High temperatures from the lower 70s to the lower 80s.
